LIAISON BETWEEN ARMY AND CIVIL POPULATION.

- - -

Sir,

I am directed to forward an extract of a letter from His Excellency the Commander-in-Chief on the above subject. The Hon'ble the Resident hopes that the Government of Mysore will agree to afford facilities to senior military Commanders to visit factories and workshops in the State. In this connection H.Q., 109 L of C Area wish to be informed which of the industries in the State the Government of Mysore consider would be of interest to senior officers in that Area. I am to request you kindly to furnish this

information

information to this Residency as soon as possible. The military authorities consider and the Hon'ble the Resident agrees with them, that liaison visits of this nature would go a long way to bringing the army and the civil population closer together.

I have the honour to be,
Sir,
Your most obedient servant,

SECRETARY TO THE RESIDENT.

Extract of a letter from H.E. the Commander-in-Chief.

" In this connection, I would like you to do all you can to encourage senior commanders and others to visit civilian factories, workshops and other establishments engaged in war work. There are a large number of these establishments and I am quite sure that periodical visits by general and other senior officers would do a great deal to show them that we, for whom they are working so hard, do appreciate their efforts and recognise that they too are pulling their weight in this war."

To

The Chief Secretary to Government,
BANGALORE.

Sir, Sub: Liaison between Army and Civil population

With reference to your letter No.W.2725-27 dated 25th May 1944, I have the honour to state that the marginally noted factories might be of interest to the Senior Officers of H.Q. 109 L of C Area. The General Managers of these Concerns will be instructed to afford necessary facilities when these Senior Military Officers visit these factories. But, as the Factories have at present suspended their full operations owing to the breakdown of the power supply from Shivasamudram, it may be suggested that the Officers should preferably arrange their visits after normal power supply has been restored to these factories.
